

# The adventures of Captain Kirk "special high seas" P2

The Professor, Batman and spiderman will organize a series of scuba dives in the hope of finding traces of poor Captain Kirk. The Professor called Edgard back as a backup.

-You see, my dear Spiderman, you have to organize this operation like great professionals. With method and pragmatism on the one hand, and rationality on the other!  
-Teacher, look, Batman's going down.  
-Batman! Batman! Batman! Close your suit, you left the window open.  
- Batman! Batman! Batman! Batman! Don't dive, you haven't put on your lead soles.  
-Unfortunately, he went down, but do something, Spiderman!

-It's weird I'm going straight to the bottom,

Be-Bop-A-Lula. Be-Blop-Blup-Blop-Blop-Blop!

-We have to go fish him out, Spiderman, dive in.

-No Professeur, I can't swim!

-But what exactly do you know how to make yourself look like a mummy?

Ah ! Here comes Edgard, sporty as he is, he will dive immediately. Here's another ship coming towards us?

Vlad in his fast-moving ship did not see the Professor's aircraft led by Edgard. When Edgard can't see Vlad's ship since he's training with a balloon in the cockpit. The shock is inevitable, it is powerful, Vlad's ship falls into the water, the Professor's much stronger aircraft has only a slight bump.

As Batman came to the surface after getting rid of his suit, he saw a ship sinking into the ocean in front of him, which a sea monster was trying to devour.

Ah! My poor Batman, I thought you were dead.

-Me too Professor, when I saw the monster swallow the spaceship I thought it would eat me too.

The poor man, the Professor thinks, loses his mind, it is probably the decompression stops he could not respect that give him hallucinations.

-Quick, get back on board, we'll talk about all this in the cabin.

Was Vlad eaten by the sea monster?

The sequel to the next episode.marin ?
